

MAILSEND

NAME

MailSend -- Send messages in the "Outgoing" folder.

TEMPLATE

ALL/S

FUNCTION

Sends either all or only the selected messages in the "Outgoing" folder.

Messages marked as "Hold" are not affected by the command.

INPUTS

ALL/S - optional, force the command to send all the messages (V2.0)

RETURNS

RC is set to 5 if the system is not online or if there isn't any message ready to be sent. (V2.0)

NOTES

EXAMPLE

BUGS

No warning was returned in case of a problem to send. This was fixed in V2.0.
